PO11Q - Quantitative Political Analysis: From Measurement to Inference

Technical Report 2026/27

Dr Florian Linke
Florian.Linke@warwick.ac.uk

1 | Instructions

Choose one of the following political science concepts:

a) Autocracy b) Patronage c) Genocide d) Peace

Write a report in accordance with the following guidelines:

- Title: "Conceptualisation and Measurement: An Evaluation of <*your concept*>"
- Length: **No more** than 750 words
- Task: Evaluate how <*your concept*> is conceptualised and measured in empirical political science research. Utilise peer-reviewed journal articles for this evaluation.

You are not expected to include an introduction and a conclusion in your report. Overall, a minimum of 10 unique sources is required. Lecture slides are not a permissible reference.

2 | Essay Guidelines

Please note: This is a PAIS module. Therefore, marking criteria, and applications for extensions on this module are governed by PAIS regulations.

Guidelines for essay writing (word counts, referencing styles, etc.), however, are special to this module. They can be found in a document available on the PO11Q Moodle page (Assessment → Summative Report (25%) → QS POQ Essay Guidelines). The regulations outlined in this document replace the corresponding rules in the handbook. All other guidelines in the UG handbook remain unaffected.
